

# Vacuum Sealer

Commercial-use nozzle-type vacuum sealer

## V-300/V-300-10W

Freshness keeping and acidify-proof tabletop sealer.

Suitable for freshness keeping and acidify-proof and moisture dust proof packaging. To use with free-oxygen absorber is same as vacuum sealing. To change the direction of pump tube can do flushing operation. Special pouch specifications are listed on page 9. V-300-10D is equipped with double impulse seal (top & bottom) and can seal static free gas-barrier Multi-layers sealing films.

V-300

V-300-10D

Vacuum pump capacity  
pumping speed: 10L/min  
ultimate pressure: 42.7Kap(320torr)

Model Name	Power Consumption W	standard table attached		Weight kg	Dimensions mm W X L X H
		Width	Length		
V-300	1050or560	10or5	300	12	370X430X270
V-300-10D	1050	10	300	12.7	370X430X270

Nozzle-type vacuum sealer for rice pouch

## V-300R-35

Vacuum sealer for rice-polishing factories or rice shops

It is specially designed for pouch filling operations ( 1–5kg) at rice-polishing factories or rice shops. With the table attached it is easy to reorder the rich pouch. Compact designing and easy to move with the stand supporter.

Vacuum pump capacity  
pumping speed: 20L/min  
ultimate pressure: 42.7Kap(320torr)

Model Name	Power Consumption W	standard table attached		Weight kg	Dimensions mm W X L X H
		Width	Length		
V-300R-35	1150or660	10or5	300	33	355X675X940

Table-top Nozzle type Vacuum sealer

## V-400 Series

Air driving compact table top sealer

It is compact tabletop vacuum sealer uses a compressor pump inside that activates the driving cylinder with exhaust air and vacuums with intake air. All the active parts are covered with the shell to ensure the safety operation. A stand is also optional accessory when an appropriate work station is not available in your place.

V-400

V-400Stand  
with optional stand

Vacuum pump capacity  
pumping speed: 80L/min  
ultimate pressure: 5.3Kap(400torr)

Model Name	Power Consumption W	standard table attached		Weight kg	Dimensions mm W X L X H
		Width	Length		
V-400	2000or1100	10or5	400	45	580X520X340
V-300-10D	2600	10	400	50	580X520X340

note: ultimate pressure 0torr equal 0pa.  
note: Gauge value of vacuum pump's ultimate pressure is measured before it is assembled.
